Y**

- **CENNAMIDES**

Vegetal ceramides

An exclusive and patented association of phytosphingolipids (ceramides) and digalactosyldiglycerides (Dg dg) extracted from wheat.

- Moisturising
- Regenerating
- Healing
- Anti-elastase and anti-collagenase
- Anti-radicals

Three references available:

- => Wheat lipids at 15 % Ceramides
- => Water-dispersible powder at 50 % Ceramides
- => Water-soluble emulsion at 5 %

- **ADENNA**

Vegetal DNA

A solution of DNA (desoxyribonucleic acid) extracted from wheat germs and intended for the care of dry, damaged, or mature skin and hair.

- Moisturising
- Regenerating
- Anti-ageing (Anti-elastase)
- Anti-radicals

- **SOYENNA**

Vegetal FILATOV extract

An all-vegetal active ingredient issued from embryonic tissues of soya (soybean) and prepared according to enzymatic and molecular selection techniques (Filatov extraction). With a valuable content in amino-acids, peptides and trace-elements, SOYENNA has a double cosmetic interest : it boosts the skin and hair metabolism and provides essential nutriment.

- Moisturising
- Nourishing
- Revitalising

- **AVENNA MP25**

Oat extract with high beta-glucan content (25%).

- Moisturising
- Soothing
- Wound healing

- **THALASSENNA**

A micro-algae (*Thalassiosira pseudonana*) extract with high selenium content.

- Anti-oxidant (anti-radicals)
- Acts against lipid peroxidation

- **SPIRULENNA**

A blue algae (*Spirulina platensis*) extract with high phycocyanin content.

- Anti-oxidant (anti-radicals)
- Anti-inflammatory

- **TENSENNA**

A complex of proteins (albumin and globulin) extracted from wheat gluten.

- Tensor
- Moisturising
- Softening
- Protective (anti-radicals)
- Antiageing

- **TURN WHITE COMPLEX**

Herbal skin-lightening agent

A unique botanical ingredient with proven skin whitening and perfecting activity. The TURN WHITE COMPLEX, by suppressing the pigmentation of the skin, reduces the brown coloration, prevents the formation of freckles, birthmarks and senile keratosis, and can be used with good effects to whiten dark skin or areas of dark skin.

The TURN WHITE COMPLEX is also an effective answer for lightening ethnic skin.

- Skin-lightening
- Suppresses pigmentations
- Rejuvenating

- **KIGELIA EXTRACT**

An extract of *Kigelia africana* fruits which contains interesting amounts of steroidal saponins and flavonoids.

- Bust and breast firming and uplifting

- **NOSTER MX**

An exclusive complex of phytosterols extracted from soya, avocado, corn and maritime pine.

- Moisturising
- Emollient
- Softening
- Antiinflammatory

- **MEDULLENNNA**

Vegetal substitute for medulla (marrow)

A blend of vegetal substances presenting an analogy with animal marrow

- Moisturising
- Protective
- Softening and smoothing

- **CAPSINE**

An oil-soluble extract of capsicum fruits with a content of 10 % capsaicin

- Warming
- Analgesic
- Circulatory

Also available: CAPSINE WS, a water-soluble extract with 1.5 % capsaicin

- **ENN'ACTIVE GINGER**

An oil-soluble extract of ginger roots with a content of 30 % essential oil

- Toning and stimulating
- Warming and analgesic
- Circulatory

- **ENN'ACTIVE GRAPE SEED**

A water-soluble liquid extract of grape seeds with a content of 0.5 % procyanidins

- Strong antioxidant
- Improves blood circulation
- Stimulates hair growth

- **ENN'ACTIVE GREEN TEA**

A water-soluble powder extract of green tea leaves with a content of 15 % polyphenols & 3 % caffeine

- Antioxidant
- Deodorant
- Antimicrobial
- Slimming

- **ENN'ACTIVE GARCINIA**

A water-soluble powder extract of garcinia cambogia fruit rinds with a content of 60 % hydroxycitric acid

- Fat burning
- Fat blocking
- Moisturizing and regenerating

- **ENN'ACTIVE CARROT**

An oil-soluble extract of carrot roots with a content of 1 % carotenoids

- Anti-oxidant
- Natural colourant

- **ENN'ACTIVE CHAMOMILE**

A water-soluble powder extract of chamomile flowers with a content of 0.3 % apigenin

- Soothing
- Purifying
- Blond hair bleaching

- **ENN'ACTIVE GRAPEFRUIT SEED**

A water-soluble liquid extract of grapefruit seeds with a content of 0.2 % flavonoids

- Antimicrobial
- Anti-inflammatory
- Toning and circulatory

- **ENN'ACTIVE PAPAYA**

A water-soluble powder extract of papaya fruits and stems with a content of 5 % papain

- Cleansing and wound-healing
- Enzymatic exfoliation

ENNACOMPLEXES

Botanical Complexes

ENNACOMPLEXES are blends of liquid (hydroglycolic) botanical extracts selected on the basis of their synergistic dermo-cosmetic activity. Their quality is guaranteed by the identification of active ingredients.

SKIN CARE :

- **ENNACOMPLEX 261**
ANTI-CONGESTIVE
(ANTI-REDDENING / ANTI-BLOTCHINESS)

Mixed extract of red vine, St John's wort, arnica, witch hazel, horse chestnut, and ivy

*Tonic, astringent, vasoconstrictor
stimulates and regulates the micro-blood circulation*
- **ENNACOMPLEX 262**
SOFTENING
(SENSITIVE SKIN)

Mixed extract of marigold, roman chamomile, linden, cornflower, German chamomile, and St John's wort

Anti-inflammatory, desensitising, relaxing, softening
- **ENNACOMPLEX 263**
ANTIWRINKLE

Mixed extract of hops, rosemary, horsetail, pine, and lemon

*Softening, antiseptic, toning
anti-ageing
stimulates micro-blood circulation
clears the complexion*
- **ENNACOMPLEX 264**
OILY SKIN

Mixed extract of watercress, burdock, sage, lemon, ivy, and soapwort

Antiseptic, antipruritic, astringent, vasoconstrictor, decongestive
- **ENNACOMPLEX 266**
MOISTURISING

Mixed extract of mallow, ivy, pellitory, cucumber, elder, and arnica

Emollient, soothing, itch-relieving, refreshing

- **ENNACOMPLEX 267**
YOUNG SKIN NORMALIZER

Mixed extract of burdock, lemon, hops, St John's wort, sage, marigold, and soapwort

Antiseptic, antiinflammatory, decongestive, balancing, healing

- **ENNACOMPLEX 273**
ASTRINGENT

Mixed extract of Rose flower, Hamamelis leaf, Oak bark, and Apple leaf

*Astringent, antipruriginous, antiinflammatory
antiseptic, anti-seborrheic
tightens open pores, reduces sebaceous secretions
heals small cuts and blemishes*

- **ENNACOMPLEX 271**
EYELID TONE

Mixed extract of ladys mantle, ivy, horsetail, and chamomile

*Restores the elasticity, astringent, soothing
improves the microcirculation*

- **ENNACOMPLEX 231**
EYE CONTOUR

Mixed extract of horsetail, witch hazel, licorice, ginseng, and ginkgo biloba

*Restructuring, soothing, toning
anti-puffiness, anti-dark circles
antiageing, protective*

BODY CARE :

- **ENNACOMPLEX 265**
SLIMMING

Mixed extract of ivy, fucus, queen meadow, clematis, and horsetail

*Anti-cellulite, desinfiltrant, microcirculatory
astringent, toning, firming, restructurant*

- **ENNACOMPLEX 268**
CONNECTIVE TISSUE RESTORER

Mixed extract of horsetail, ivy, tormentil, and centella

*Restores the connective tissue in case of stretch marks, wrinkles,
skin ageing, eye pouches*

- **ENNACOMPLEX 269**
CONGESTED LEGS (« HEAVY LEGS »)

Mixed extract of red vine, butcher's broom, pine, and witch hazel

*Improves blood circulation
toning, antiinflammatory, protective*

- **ENNACOMPLEX 270**
RHEUMATISM

Mixed extract of harpagophytum and juniper

Analgesic, antiinflammatory, antirheumatic

- **ENNACOMPLEX 212**
BUST FIRMING

Mixed extract of sage, olive leaf, ginseng, lady's mantle, and shepherd's purse

Firms and tones the bust

HAIR CARE :

- **ENNACOMPLEX 260**
HAIR TREATMENT

Mixed extract of white nettle, pine, burdock, chamomile, rosemary, ivy, arnica, watercress, and garlic

*Stimulates the activity of hair roots
stimulates hair growth
controls dandruff, eczema and seborrhoea*

BABY SKIN CARE :

- **ENNACOMPLEX 234**
BABY SKIN

Mixed extract of carrot, marigold, and chamomile

Moisturising, softening, nourishing, purifying

OILY BASIS :

- **MOISTURISING AND SOOTHING OIL**

Mixed infusion in sunflower seed oil of marigold, linden, mallow, St John's wort, elder, and arnica.

*Provides extra moisture and emolliency
in addition to the soothing properties of the mixed botanicals*

ENNACTIVES

Titrated Botanical Complexes

This new generation of complexes offers titrated (quantified) amounts of active constituents and thus offer a consistent activity.

- **ENNACTIVE 203**
SLIMMING

Mixed extract of tea, fucus, grapefruit, meadowsweet, horsetail, ivy, and clematis

Dosed in caffeine and naringin

*Anti-cellulite, lipolytic
toning, firming, restructuring*

- **ENNACTIVE 205**
BODY SHAPING

Mixed extract of hibiscus and garcinia cambogia

Dosed in hydroxycitric acid

*Blocks and burns the fatty accumulations
stimulating, regenerating, moisturising*

- **ENNACTIVE 216**
BREAST DEVELOPMENT

Mixed extract of hops, licorice, date, willow, and ginseng

Dosed in phyto-hormones

*Toning
stimulates the hormonal activity*

FRUIT AND FLOWER ACIDS

AHA and BHA Derived Extracts

- **AHA EXTRACT**

Mixed fruit extract

An exclusive fresh fruits extract with a natural content (5 % min.) of alpha-hydroxy-acids.

Apricot, Strawberry, Raspberry, Guava, Mango, Grapefruit, Peach and Passionfruit have been chosen, as a source of Glycolic, Lactic, Citric and Mandelic acids.

- Moisturising
- Soothing
- Purifying
- Improves hair texture

- **AHA EXTRACT 44**

Mixed fruit extract with 44% AHAs

A mix of fresh fruits extracts (Lemon, Bilberry, Apple, Sugar cane and Grape) with a complementary blend of alpha-hydroxy-acids (Citric, Lactic, Glycolic and Tartaric) to reach 44%.

- Moisturising and soothing
- Regenerating and antiageing
- Purifying
- Complexion-clearing
- Peeling (at high doses)
- Improves hair texture

- **MIXED FLOWER EXTRACT**

26% flower acids

An extract of 3 flowers (hibiscus, dog rose and sweet violet) naturally rich in organic acids (salicylic, citric, ascorbic, malic and tartaric), with a complement to reach a standardised content of 26%.

- Moisturising and soothing
- Rejuvenating
- Purifying
- Reduces fine lines and age spots
- Improves hair texture

- **BHA EXTRACT**

Natural BHAs complex

An exclusive standardised extract of Cauliflower, a plant chosen for its natural content in beta-hydroxy-acids (BHAs), especially Serine and Threonine.

- Moisturising and soothing

VEGETAL SCRUB AGENTS

- **RASPBERRY EXFOLIATING POWDER**

Micronised and standardized powder of raspberry seeds.

- Eliminates dead cells
- Stimulates micro-blood circulation and cells renewal
- Non-aggressive
- Softens the skin

- **ORANGE FIBRES EXFOLIATING POWDER**

Micronised and standardized powder of orange fibres, with thin particles made especially for the face.

- **CITRUS EXFOLIATING POWDER**

Micronised and standardized powder of orange, grapefruit and lemon fibres, with big particles made especially for the body.

- **COTTON POWDER**

Micronised powder of pure cellulose made from cotton fibres.
A very soft, non-aggressive scrub agent for delicate and sensitive skin types.

- **BAMBOO FIBRES POWDER**

Micronised powder of Bamboo fibres.
A very soft, non-aggressive scrub agent for delicate and sensitive skin types.

- **CITROMAT**

A vegetal talc which associates a micro-smoothing effect to an oil absorbent effect: the fineness and regularity of the particles allow a very precise and non-aggressive exfoliation, and when they are in contact with the skin, they also act as a micro-blotting substance which can absorb the excess of sebum

- Non-aggressive
- Eliminate dead cells
- Stimulate cells renewal
- Smooth the skin
- Absorb the excess of sebum

NATURAL CLAYS

- **GREEN CLAY**

An illite type clay with purifying and complexion-clearing properties, dedicated to oily skin.

- **YELLOW CLAY**

An Illite-kaolinite type clay dedicated to normal or combination skin.

- **PINK CLAY**

A kaolinite type clay dedicated to sensitive or irritated skin.

- **RED CLAY**

A kaolinite type clay dedicated to normal but irritated skin.

- **WHITE CLAY**

A kaolin type clay dedicated to dry or dehydrated skin.

MARINE ACTIVES

- **COLLAGENNA**

Marine native collagen

Solution of soluble type I native collagen extracted from fish skin.

- Moisturising
- Maintains elasticity and firmness of the skin
- Conditions and protects the hair

- **COLLAGENNA V**

Marine native collagen

Efficient fibroblast stimulating factor

Soluble type V native collagen with high hydroxylysine content, extracted from fish skin.

- Moisturising
- Protects the skin
- Antiwrinkle
- Anti-stretch marks

- **COLLAGENNA H**

Hydrolysed marine collagen

Solution of hydrolysed collagen extracted from fish skin.

- Moisturising
- Nourishing
- Film-forming

- **ELASTENNA**

High MW marine elastin

A solution of elastin extracted from fish skin.

- Moisturising
- Tensor

- **KERATENNA**

Marine keratin

A solution of pure keratin extracted from fish.

- Moisturises, nourishes, repairs hair and nails
- Stimulates hair growth

- **ENNAPEPTID M**

Marine peptidic extract

A solution of peptides extracted from fresh fish

- Regenerating, stimulates cells multiplication
- Immuno-stimulant

- **ENNAPURE CS**

Marine oligosaccharide

A solution of chondroitin sulphate extracted from fish cartilage

- Highly moisturizing
- Film-forming
- Restructuring

- **GLYCOSENNA**

Depolymerised marine oligosaccharide

A solution of low molecular weight hydrolysed chondroitin sulphate extracted from fish cartilage

- Highly moisturizing
- Restructuring
- Stimulates cells growth
- Reduces skin sensitivity

- **CHITOSAN**

Top-grade chitosan extracted from fresh shrimp shells. Certified to be completely soluble.

- Film forming effects on skin and hair
- Reduces hair static charge
- Gives body to the hair
- Enhances a persistent skin smoothness
- Reduces skin irritations
- Stabilises emulsions and modifies the viscosity
- Increases the water-resistance of sunscreens
- Haemostat
- Antimicrobial for toothpastes, shampoos and deodorants

=> Cosmetic grade free flowing powder available in different viscosities (10, 110, 400, 1200 cps)

- **PROTAMINE SULFATE**

A purified basic protein extracted from salmon milt.

- Avoids fat accumulations in the tissues
- Antibacterial

- **PEARL POWDER**

A micronised pearl shells powder

- Improves the elasticity of the skin
- Anti-ageing
- Softening

VITAMIN DERIVATIVES

E X C L U S I V I T Y

- **VITENNA COS VCE**
Purified Ethyl Ascorbic Acid

A new vitamin C derivative, very stable, very effective

- Anti-oxidant
- Promotes the synthesis of collagen
- Whitening, suppresses melanin
- Anti-inflammatory

- **VITENNA L**
Vitamin E Linoleate (Tocopheryl Linoleate)

A derivative of Vitamin E and Linoleic Acid, an essential fatty acid, that synergises the effects of both compounds to provide superior moisturising benefits to the skin, hair, and nails.

- Moisturising and smoothing
- Maintains elasticity of the skin
- Antiinflammatory

- **VITENNA N**
Vitamin E Nicotinate (Tocopheryl Nicotinate)

A derivative of Vitamin E and Nicotinic Acid that synergises the effects of both compounds to provide positive microcirculatory effects to the skin and scalp.

- Improves microcirculation
- Decongestive
- Reduces cellulite
- Increases hair growth
- Moisturising

- **INOXAN 583**
Vitamin-based antioxidant

A mix of ascorbyl palmitate and dl-alpha-tocopherol to be used as antioxidant for oil-based products.

MICROEMULSIONS

Microemulsions are unique water-dispersible delivery systems. This technology gives thermodynamically stable systems made of droplets of less than 100 nm and offers the possibility to incorporate vitamins directly in aqueous or hydroalcoholic liquid products, or in emulsions with continuous water phase. These microemulsions also increase the biodisponibility of vitamins inside of the intracellular medium.

- **MICROEMULSION A**

A watersoluble microemulsion with high vitamin A content.

- Stimulates cells growth
- Acts against skin ageing
- Smoothes wrinkles
- Helps to repair injured skin
- Improves the contour of dry scaly skin
- Reduces harmful effects from UV exposure
- Improves the complexion

- **MICROEMULSION E**

A watersoluble microemulsion with high vitamin E content.

- Limits skin ageing
- Moisturising
- Antiinflammatory
- Protects against UV damage
- Improves blood circulation
- Promotes hair growth

- **MICROEMULSION CEV**

A watersoluble microemulsion with the 3 cosmetic essential vitamins:
A, E and C.

ACTIVES FROM THE BIOTECHNOLOGY

- **SODIUM HYALURONATE**
Sodium Salt of Hyaluronic Acid

A biopolymer with impressive moisture retention properties.

- Maintains constant moisture
- Skin lubrication
- Softens and smoothes the skin
- Antiperoxidant
- Antiinflammatory
- Wound healing
- Antiwrinkle
- Time release carrier of active ingredients

HERBAL ACTIVE PRINCIPLES

Purified Fractions of Plants

- **BROMELAIN (FROM PINEAPPLE STEMS) HAP1126**
 - *Cleansing, wound healing*
 - *Keratolytic (enzymatic exfoliation)*
- **GRAPE POLYPHENOLS HAP1112**
 - *Anti free radicals*
 - *improve blood circulation*
- **GRAPE SEED PROCYANIDINS (OPC) HAP1102**
 - *Anti free radicals*
 - *improve blood circulation*
 - *stimulate hair growth*
- **GREEN TEA POLYPHENOLS HAP1106**
 - *Anti-oxidant (anti-radicals)*
 - *deodorant*
 - *prevention of dental caries*
 - *antimicrobial*
- **LYCOPENE 6 % / LYCOPENE 2 % WS (FROM TOMATO)**
 - *Cleansing, wound healing*
 - *Keratolytic (enzymatic exfoliation)*
- **PAPAIN (FROM PAPAYA FRUIT LATEX) HAP1115**
 - *Cleansing, wound healing*
 - *Keratolytic (enzymatic exfoliation)*
- **QUILLAJA BARK SAPONINS HAP1122**
 - *Foaming*
 - *Cleansing*
- **SOPHORA JAPONICA RUTIN HAP1001**
 - *Anti free radicals*
- **TANNIC ACID (FROM OAK NUTGALL) HAP1116**
 - *Astringent*

BOTANICAL EXTRACTS:

- *Hydroglycolic Extracts*
- *Tinctures, Mother Tinctures & Fluid Extracts*
- *Oily Extracts*
- *Natural Oils*
- *Distilled Waters*
- *Essential Oils*

Hydroglycolic Extracts (Water-Soluble Liquid Extracts)

Ennagram offers an extensive range of the finest liquid botanical extracts made with plants, herbs, fruits and seaweed coming from all over the world and intended to be used in practically all cosmetic products.

These extracts are normally available in a hydroglycolic (water and propyleneglycol) base, but also offered in water and butyleneglycol (ref HB), or water and glycerine (ref HGL), water and ethanol (ref. TINC), propyleneglycol only (ref. G), butyleneglycol only (ref. B), glycerine only (ref. GLY).

Preservative-free extracts are available on request, as well as decolorized extracts, and when possible we suit individual requirements.

We use 1 kg of fresh plant (or its dry equivalent) to obtain 1 kg of extract but less concentrated, cost-effective extracts are also available.

All extracts are made by the cold-process to preserve the integrity and activity of each ingredient, and whenever possible organically grown plants are used.

Our exclusive manufacturing process allows to extract all the active fractions of the plants : vitamins, tannins, flavonoids, amino-acids, trace elements, minerals, essential oils ...

All extracts also conform to quality standards. Quality control includes organoleptic characterisation, physical-chemical measurements (density, pH, refractive index), active matter determination (by TLC and/or HPLC) and microbial count.

Moisturising - slenderising
- Spiruline ME013
Regenerates and nourishes the skin
- Ulva ME010
Regenerates and nourishes the skin
- Wakame ME011
Protects and stimulates hair and scalp

Tinctures, Mother Tinctures & Fluid Extracts ***(Pharmaceutical Grade)***

Tinctures, Mother Tinctures and Fluid Extracts are alcohol (ethanol)-based extracts prepared according to the French or European Pharmacopoeia and by the cold-process to preserve the integrity of the active ingredients. For Mother Tinctures we can also manufacture following the requirements of the German Homeopathic Pharmacopoeia.

The plant/extract ratio is generally 1/5 for the Tinctures, 1/10 for the Mother Tinctures and 1/1 for the Fluid Extracts. We are using dried plants for the Tinctures and Fluid Extracts and fresh plants for the Mother Tinctures. The final alcoholic title is generally 60° for the Tinctures and Mother Tinctures and 40° for the Fluid Extracts.

All the plants, herbs, fruits, seaweeds are possible. For the complete list see page 21 to 26 of this catalogue.

Oily Extracts (Oily Macerates)

Oily Extracts are oil-soluble extracts of plants made with refined sunflower seed oil as the solvent. These extracts are made at a controlled temperature and contain some of the oil-soluble and aromatic fractions of the plants.

All the plants, herbs, dried fruits, seaweeds are possible. For the complete list see page 21 to 26 of this catalogue.

Natural Oils

A selection of refined and unrefined (virgin) oils

	REF.		
Apricot kernel	HV167	Jobba	HV164
Argan	HV179	Musk rose	HV161
Avellana (Chilean hazelnut)	HV163	Neem	HV180
Avocado	HV169	Olive	HV168
Borage	HV173	Plum kernel	HV176
Chaulmoogra	HV175	Rose hip	HV161
Corn	HV165	Shea butter	HV181
Evening primrose 9% GLA	HV172	Sunflower seed	HV178
Grape seed	HV177	Sweet almond	HV166
Hazelnut	HV171	Wheatgerm	HV162
India poon (Calophyllum)	HV170		

Distilled Waters

Distilled Waters are obtained by water-steam distillation at 100°C. They contain the aromatic fraction and some of the water-soluble components of the plants.

They facilitate the formulation of transparent and colourless products. They also allow to flavour your toning waters naturally.
